Changes to funding attributable to Rural Services Technical Adjustments - Pre and Post Damping

Bassetlaw Exemplifications Data

	Pre Damping	Post Damping	Difference
2012/13 Funding	6,916,083	8,193,256	
Impact of Rural Services Adjustment	432,751	221,439	-49%
2012/13 Funding with Adjustment	7,348,834	8,414,695	
Percentage change arising from Rural Services Adjustment	6.26%	2.70%	

The graph and table show that Bassetlaw would have had a pre-damping 6.26% increase in funding if the rural services adjustment had been implemented in 2012/13. However, damping would have reduced that gain arising from the rural service technical adjustment to 2.7%. Consequently, damping reduces the impact of the rural services technical adjustment by 49% for Bassetlaw.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Pre and Post Damping

The impact of the **positive** rural services technical adjustment and the subsequent **negative** impact of damping can be seen in this graph.

The pre-damping impact for Bassetlaw is a funding gain of £3.83 per head. For this reason, we feel that it is important that Bassetlaw supports the rural services technical adjustment in the consultation.

However, the post-damping impact for Bassetlaw is a much reduced funding gain of £1.96 per head. For this reason, SPARSE Rural have called on the Government to find a way of ensuring that a greater proportion of the pre-damping gains arising from the rural services technical adjustment are realised as cash funding.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Comparison with Nearest Urban Authority - post damping

Comparison of Impact of Technical Changes - Bassetlaw v Nottingham

To provide a comparison, in two tier areas, County and District funding has been added together. So, in order to be comparable with Nottingham which is a unitary authority Bassetlaw's funding per head has been added to that of Nottinghamshire County Council.

In 2012/13, Bassetlaw received £240.88 less funding per head than Nottingham.

Prior to damping, the gains attributable to the rural services technical adjustment would have resulted in a closing of the gap between Nottingham and Bassetlaw to £221.4 per head. This is a significant improvement for rural areas and SPARSE Rural has welcomed the changes in the recent Business Rates consultation.

As shown above, the damping block significantly reduces the gains arising from the rural services technical adjustment. After damping the gap in funding between Nottingham and Bassetlaw increases to £236.79 per head.
