Urban Comparator: North East Lincolnshire

Changes to funding attributable to Rural Services Technical Adjustments - Pre and Post Damping

East Lindsey Exemplifications Data

	Pre Damping	Post Damping	Difference
2012/13 Funding	12,006,336	12,429,692	
Impact of Rural Services Adjustment	2,243,078	701,657	-69%
2012/13 Funding with Adjustment	14,249,414	13,131,349	
Percentage change arising from Rural Services Adjustment	18.68%	5.65%	

The graph and table show that East Lindsey would have had a pre-damping 18.68% increase in funding if the rural services adjustment had been implemented in 2012/13. However, damping would have reduced that gain arising from the rural service technical adjustment to 5.65%. Consequently, damping reduces the impact of the rural services technical adjustment by 69% for East Lindsey.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Pre and Post Damping

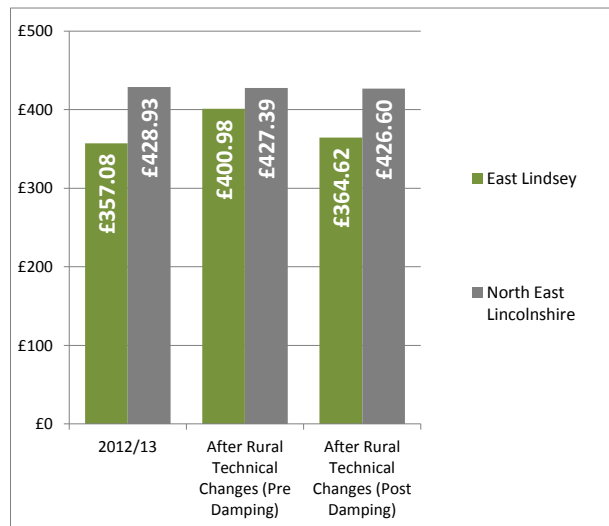

The impact of the **positive** rural services technical adjustment and the subsequent **negative** impact of damping can be seen in this graph.

The pre-damping impact for East Lindsey is a funding gain of £15.38 per head. For this reason, we feel that it is important that East Lindsey supports the rural services technical adjustment in the consultation.

However, the post-damping impact for East Lindsey is a much reduced funding gain of £4.81 per head. For this reason, SPARSE Rural have called on the Government to find a way of ensuring that a greater proportion of the pre-damping gains arising from the rural services technical adjustment are realised as cash funding.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Comparison with Nearest Urban Authority - post damping

Comparison of Impact of Technical Changes - East Lindsey v North East Lincolnshire

To provide a comparison, in two tier areas, County and District funding has been added together. So, in order to be comparable with North East Lincolnshire which is a unitary authority East Lindsey's funding per head has been added to that of Lincolnshire County Council.

In 2012/13, East Lindsey received £71.85 less funding per head than North East Lincolnshire.

Prior to damping, the gains attributable to the rural services technical adjustment would have resulted in a closing of the gap between North East Lincolnshire and East Lindsey to £26.4 per head. This is a significant improvement for rural areas and SPARSE Rural has welcomed the changes in the recent Business Rates consultation.

As shown above, the damping block significantly reduces the gains arising from the rural services technical adjustment. After damping the gap in funding between North East Lincolnshire and East Lindsey increases to £61.98 per head.
