

Authority: Ribble Valley

Urban Comparator: Manchester

Changes to funding attributable to Rural Services Technical Adjustments - Pre and Post Damping

Ribble Valley Exemplifications Data

	Pre Damping	Post Damping	Difference
2012/13 Funding	2,695,480	2,823,026	
Impact of Rural Services Adjustment	469,902	142,530	<b>-70%</b>
2012/13 Funding with Adjustment	3,165,383	2,965,556	
<b>Percentage change arising from Rural Services Adjustment</b>	<b>17.43%</b>	<b>5.05%</b>	

The graph and table show that Ribble Valley would have had a pre-damping 17.43% increase in funding if the rural services adjustment had been implemented in 2012/13. However, damping would have reduced that gain arising from the rural service technical adjustment to 5.05%. Consequently, damping reduces the impact of the rural services technical adjustment by 70% for Ribble Valley.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Pre and Post Damping

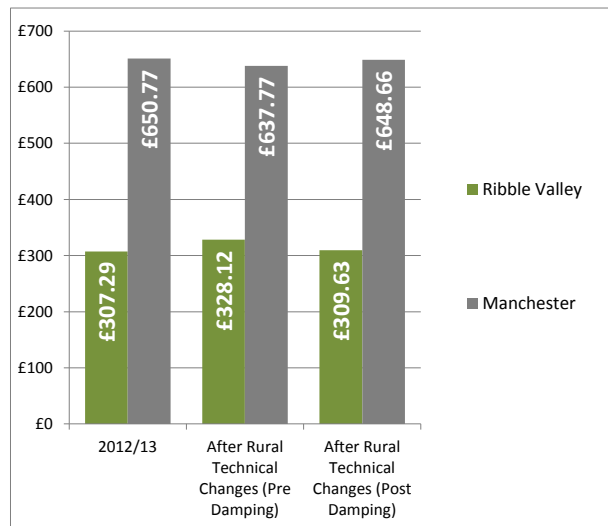

The impact of the **positive** rural services technical adjustment and the subsequent **negative** impact of damping can be seen in this graph.

The pre-damping impact for Ribble Valley is a funding gain of £8 per head. For this reason, we feel that it is important that Ribble Valley supports the rural services technical adjustment in the consultation.

However, the post-damping impact for Ribble Valley is a much reduced funding gain of £2.43 per head. For this reason, SPARSE Rural have called on the Government to find a way of ensuring that a greater proportion of the pre-damping gains arising from the rural services technical adjustment are realised as cash funding.

Impact of the changes attributable to Rural Services Technical Adjustments on Funding - Comparison with Nearest Urban Authority - post damping

Comparison of Impact of Technical Changes - Ribble Valley v Manchester

To provide a comparison, in two tier areas, County and District funding has been added together. So, in order to be comparable with Manchester which is a unitary authority Ribble Valley's funding per head has been added to that of Lancashire County Council.

In 2012/13, Ribble Valley received £343.48 less funding per head than Manchester.

Prior to damping, the gains attributable to the rural services technical adjustment would have resulted in a closing of the gap between Manchester and Ribble Valley to £309.65 per head. This is a significant improvement for rural areas and SPARSE Rural has welcomed the changes in the recent Business Rates consultation.

As shown above, the damping block significantly reduces the gains arising from the rural services technical adjustment. After damping the gap in funding between Manchester and Ribble Valley increases to £339.03 per head.
