

A simple guide to RSN online spreadsheets - House Price Statistics

The analysis of House Price Statistics presents the UK House Price Index (UK HPI data published by Land Registry © Crown copyright 2016.) and associated affordability ratios for a chosen local authority area. To select the authority of interest, please follow these steps:

Using the mouse, left click on the cell containing an authority name.

Clicking this time on the grey square with a blue triangle to present the drop down list of options, use the scroll bar to find the authority of interest before selecting that authority.

I hope this helps and the spreadsheet provides a useful picture of the situation in your area. If you have any comments or suggestions, please contact dan.worth@sparse.gov.uk
