

Supplementary Note on Waste and Recycling Information

From Apr-Jun 2014 a trial group of English Local Authorities have started to report data into a new report. The report from which the data in this benchmarking tool is extracted does not support this new reporting function and so for those authorities that have made the change, no data will be available from Apr-Jun 2014. As soon as the new suite of reports containing data for all authorities is available, they will be used in this benchmarking tool.

The authorities that are within this trial reporting group, and so will not have data for the latest periods, are:
