

## A simple guide to RSN online spreadsheets – Local planning authority performance

The analysis of local planning authority performance presents for a local authority area a snapshot of their performance over a two year period. It provides their ranked position out of similarly rural authorities and also an average for similarly rural authorities. To select the authority for which the analysis is required please follow the instructions below.

Using the mouse, select the highlighted cell containing a local authority name.

Once the cell is highlighted, a grey square with a blue triangle will appear to the right of the cell.

Clicking on the grey square presents the full list of authorities to choose from and a scroll bar to the right to move up and down the list.

District matters planning authorities		County matters planning authorities	
Speed of major development decisions January 2014 to December 2015 % within 13 weeks or within agreed time		Speed of major development decisions January 2014 to December 2015 % within 13 weeks or within agreed time	
69.4		62.5	
Ranked position for Significant Rural authorities (1 - best performance)			
41			
Average for Significant Rural authorities			
77.0			
District matters planning authorities		County matters planning authorities	
Quality of decisions (on applications for major development) January 2013 to December 2014 Quality of decisions (% overturned at appeal)		Quality of decisions (on applications for major development) January 2013 to December 2014 Quality of decisions (% overturned at appeal)	
4.0		0	
Ranked position for Significant Rural authorities (1 - best performance)			
36
